Faculty Advisors

Brenda Anderson, Ph.D.
Integrative Neuroscience

Craig Evinger, Ph.D.
Neurobiology and Behavior

Current Executive Board

President
Jessica Prashad

Director of Public Relations
and Outreach
Arth Naik

Vice President
Alexander Walsh

Events Coordinator
Timur Mukhammadov

Secretary
Stephanie Twomey

Public Relations
Muhammad Hassan

Treasurer
Fatima Masqood

Mission Statement

Our mission is to facilitate the interactions between undergraduate students from all disciplines in the field of neuroscience. To provide extracurricular opportunities for undergraduate neuroscience education such as, introducing students to potential faculty mentors and by assisting in the search for research opportunities. To inform members of the careers in neuroscience and provide access to current areas of research in the field of neuroscience.

General Body Meetings

Wednesdays 7:00pm

Room 038 Life Sciences Building

-Hands On Experiments

-Researcher/Faculty
Presentations

-Clinician Presentations

-Advice on Getting into
Research

-Academic and Scheduling
Advice

Active Membership

6 GBMs and 4 Outreach Events
Or 10 Outreach Events*

*Subject to change but will never exceed this requirement

Outreach Events

- Grand Rounds
- Research Workshops
- On and Off Campus Seminars and Conferences
- Volunteering Initiatives (ex: Trunk-or-Treat)
- Events on Campus from Collaborative Organizations
(MIND and Biology Advisory Board)

Research Workshops

- To help students build skills necessary to read primary literature
- To help students understand necessary components for scientific writing
- Guided discussions on scientific literature related to neuroscience

Every other Thursday in SAC 312 from 7-8pm
Introductory meeting Tomorrow (9/14) at 7pm

NeSA Conferences

Fall Semester

Research Seminar

Spring Semester

Diversity in Neuroscience

Off-Campus Trip?

Research Seminar

October 11th at 7-10pm in SAC Ballroom A

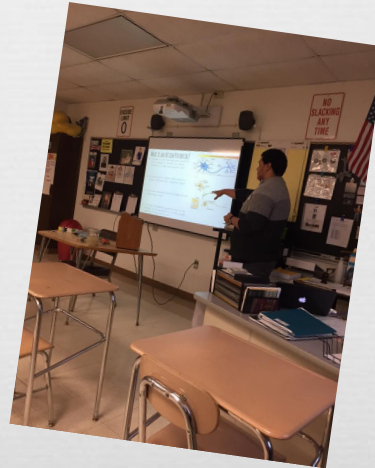

- How to contact professors about research opportunities
- How to find your research interests
- Different types of research opportunities-
Undergraduate and graduate

Brain Awareness Week

March 13-19th, 2016

Travel to local high schools on Long Island During Spring Break and perform Hands on Experiments with AP Psychology students.

Staying Updated

Be sure to join the facebook group for important updates on outreach events!
