Course Description: An examination of the World Ocean and the chemical, geological, biological, and physical processes that control its major features and the life that inhabits it. While primarily a lecture based course, extended boat trips into Shinnecock Bay and offshore occur on Mondays. This short-term intensive course is specifically designed for both undergrads & motivated high school students wishing to earn college credit.

Course meeting time: Marine Station 215, Southampton Campus; Tues - Fri, 10 am-2pm; Mondays 10-3:30 (exam and boat trip)

Purchase and read the entire textbook before the course begins.

Instructor: Dr. Kurt Bretsch, kurt.bretsch@stonybrook.edu
TA: Dylan Bothe, Dylan.bothe@stonybrook.edu

Attendance: Required at all activities. Plan to arrive at least 5 minutes early.

Lectures: Incomplete PowerPoint lecture notes will be posted on Blackboard by 7 pm the evening before each lecture. You may bring printed handouts of the lecture notes to class, or you may elect to bring a laptop. During lecture, laptops can only be used for class activities. Use of your laptop for other activities is a distraction to your fellow students, and will result in revocation of laptop privileges.

Exams: Each exam will assess students on their understanding of the material presented in lecture and the textbook from the previous week (i.e. the second exam is not comprehensive). Exams are a mixture of multiple choice and short answer questions.

Quizzes: At-home quizzes will be distributed at the end of each lecture-day and due the next day at the beginning of class. Late submissions will not be accepted.

Worksheets: During lunch, students will complete worksheet activities that reinforce their understanding of concepts discussed during lecture. Due at the end of the lunch break. Worksheets will also be completed during field activities.

Field Trips: During both field trips, come prepared to get wet and dirty. Close toed shoes (e.g. lace up sneakers) are REQUIRED. Sandals and flip flops are not permitted. Be sure to bring a pencil, sunblock, sunglasses, water, and a light jacket (it’s always colder on the water than on land). Consider bringing a camera (in a waterproof bag). During trips, there will be space to store a backpack.
**Participation:** Students are expected to ask and answer questions during lecture, attend and be engaged in field trips, and contribute to group activities.

**Other:**
Mobile communication devices must remain off during class.

Academic dishonesty will not be tolerated. Any instance will be reported to the Academic Judiciary Committee and will typically result in an F for the course.

**Americans with Disabilities Act:** If you have a physical, psychological, medical, or learning disability that may impact your course work, please contact Disability Support Services at (631) 632-6748 or http://studentaffairs.stonybrook.edu/dss/. They will document your disability and determine with you what accommodations are necessary and appropriate. All information and documentation is confidential. Students who require assistance during emergency evacuation are encouraged to discuss their needs with their professors and Disability Support Services. For procedures and information go to the following website: http://www.sunysb.edu/ehs/fire/disabilities.shtml

Students requesting accommodations for documented disabilities must do so with me before the start of the course.

</table>

Completion of **ALL** activities is a **REQUIREMENT** to pass the course.

Final Course grade will be determined using scale below:

- **A = 95-100**
- **A- = 90-94**
- **B+ = 86-89**
- **B = 82-85**
- **B- = 78-81**
- **C+ = 74-77**
- **C = 70-73**
- **C- = 66-69**
- **D+ = 62-65**
- **D = 60-61**
- **F = < 60**
### MAR 104, Summer II, 2016

#### Schedule
