Need Housing

Steve Baines (new postdoc) is looking for a place to live. Please contact Nick Fisher if you know of anything available.

Seeking Employment

Danielle Beaty with a BS in marine biology and some research experience is looking for a job. Her resume is on file in the main office.

Announcements and Opportunities

Southampton College is seeking instructors for two courses this summer. Upper level grad students welcome to apply.

EPA has several vacancies in NY, NJ and Puerto Rico for Environmental Scientist and Environmental Engineer. Closing date 2/2/98.

Suffolk County Department of Civil Service has several openings for Environmental Analyst throughout the county, including Smithtown.

Interested students/grads should sign up for required exam ASAP. Contact info is on file in main office.

The NOAA Restoration Center is recruiting for a one-year appointment for a Coastal/Marine Restoration

Specialist to work in the National Marine Fisheries Service's Regional Office in Gloucester, MA. M.S. or higher - current grad students encouraged to apply.

Assistant Professor - Dartmouth College - tenure track position in neotectonics/active tectonics/surficial processes and/or physical hydrogeology.

CHECK IT OUT! General postings (including job openings and conferences, etc.) for the ocean science community may be perused on the SCIENCENet Bulletin Board at <http://www.sciencenet.com>. Recent job postings include Coastal Bathymetry Assistant in MD; The Office of Naval Research is seeking Program Officers; the University of South Florida Department of Marine Sciences has 6 positions in support of the Coastal Ocean Monitoring & Prediction System; the University of Southern Miss. has a tenure-track faculty position for a physical oceanographer; etc., etc, etc...

Food Drive Continues

Please remember to bring in something for the food drive. There are many families in need that would appreciate your generosity.

Conferences & Meetings

The Geological Society of America has student travel grants available to student members who are presenting at the meeting to be held this year in Portland, Maine on March 19-21, 1998.

The Fourth Marine & Estuarine Shallow Water Science & Management Conference will be held in Atlantic City, NJ, on March 15-19, 1998.

The Oceanography Society (TOS) and Intergovernmental Oceanographic Commission (IOC) is holding a meeting on "Coastal and Marginal Seas" on June 1-4, 1998 at UNESCO Headquarters, Paris, France.

Announcements and Opportunities

A tenure-track Assistant Professor position in the area of Watershed Hydrology within the Hydrology program of the Department of Land, Air and Water Resources at the University of California, Davis is available. Deadline for applications is 3/27/98.

The Department of Geological Sciences and the Environmental Studies Program at the University of Colorado, Boulder are jointly recruiting for a tenure-track faculty position in biogeochemistry.

The Bureau of Resource Sciences in Canberra, Australia is actively seeking scientists to fill three vacant positions: a fisheries scientist to manage the pelagic fisheries program; a fisheries modeller and a Project Officer of the Standing Committee on Fisheries and Aquaculture's Environment and Health Committee.

The University of Mass./Boston seeks to hire a Director for the Graduate Program in Environmental, Coastal and Ocean Sciences (ECOS).

NASA/Goddard SFC's Lab for Hydrospheric Processes is seeking senior scientists for appointments as Distinguished Visiting Fellows for collaboration on research relating to the observation, analysis, and modelling of ocean and ice processes, ocean biology, the global distribution of water in it's various states, and the exchange of water between soil, the biosphere and the atmosphere. Deadline 3/1/98.

NASA/Goddard SFC's Lab for Atmospheres is seeking Ph.D.'s at all levels from post-doctoral to senior scientist for the visiting fellows program for collaboration on research relating to observation, analysis, and modelling of physical processes within the earth-atmosphere system and to relevant global change issues. Deadline 2/15/98.

The Institut National de La Recherche Scientifique (INRS) in Quebec offers 16 postdoctoral fellowships every year. French is the language used at INRS. Deadline 3/27/98.

The Bigelow Laboratory for Ocean Sciences in West Boothbay Harbor, Maine has two immediately available positions for research technicians in zooplankton/fisheries oceanography.

The Congressional Research Service (CRS) is recruiting grad students for 15 entry-level policy analyst and reference librarian positions for the summer of 1998. Some of these positions are retained for permanent employment. The CRS program performs research and analysis in direct support of the U.S. Congress. Deadline 2/26/98.

Food Drive Continues

Course Offering

Coastal Management: Options and issues in interdisciplinary work between the social and natural sciences. Oct. 26-Nov. 6, 1998 at the Center for Tropical Marine Ecology, Bremen, Germany.

Announcements and Opportunities

6:30 pm Thursday seminars at Southampton College in the Business Center Lecture Hall: 2/19/98 Larry Liddle The cell biology of giant unicellular green algae: basic and applied research.

The Earth System Science Inter-Disciplinary Center at the University of Maryland, College Park has three tenured/tenure track positions: One for Director at the full professor level, the other two at the junior and senior professional levels. Deadline 3/1/98.

The Great Lakes Natural Resource Center, a regional office of the National Wildlife Federation, has an immediate opening for a full-time Water Quality Organizer.

The A. D. Stout Fund is accepting applications from students and organizations to support research grants for New England wildlife and its habitat as well as improving management techniques through innovative ideas and programs.

The University of New Hampshire is recruiting undergraduate students for their graduate program in Marine Biology, Ocean Sciences and Ocean Engineering. Their web site is <http://marine-program.unh.edu/marine.html>.

Last but not least: For those of you who missed the email...the wax to flax date has been changed due to popular outcry. It seems that lots of key runners won't be able to partake on the 18th, so the new race date is April 25th. Interest has also been expressed in holding a swim race of some sort. Let Teresa Rotunno hear your ideas.

BLOOD DRIVE

The next blood drive is scheduled for Thursday, 4/23/98. The Captains for this drive are Nicole Maher (Dana)

Teresa Rotunno (Discovery)

Mary Scranton (Challenger)

Bonnie Stephens (Endeavor)

A sincere thank you to them for offering to help. Please sign up to give blood when they come to see you. It's important to all of us to have a safe and adequate blood supply.

Announcements and Opportunities

6:30 pm Thursday seminars at Southampton College in the Business Center Lecture Hall: 3/12/98 Wolfgang Vogelbein Cancer in a Chesapeake Bay Fish: Pathology, Prevalence and Probable Causes.

The Earth Sciences Department at the University of California at Santa Cruz has a position available for a Light Stable Isotope Geochemistry/Gas Source-Isotope Ratio Mass Spectrometer Junior or Assistant Specialist. M.S. preferred. Salary \$28,536-\$38,028. Closing extended through 3/31/98.

In anticipation of funding in the near future, applications are being accepted for one-year postdoctoral fellowships in fish ecology at Rutgers University Marine Field Station, Institute of Marine and Coastal Sciences, Tuckerton, New Jersey.

The EPA is seeking candidates to fill as many as 50 three-year post-doc positions during the coming year. A number of these positions will be filled at the EPA's National Health and Environmental Effects Research Laboratory (NHEERL). NHEERL is organized into 9 divisions that specialize in a different field of environmental health or ecology research. Positions will be filled in each of its divisions at various geographic locations. Salary range \$38,593-\$60,135. Deadline 4/30/98.

<http://www.epa.gov/ord>

Meeting Announcement & Call for Papers

The Society of Environmental Toxicology and Chemistry/North Atlantic Chapter is hosting its 4th Annual Meeting 5/29-30/98 in Saratoga Springs, NY. The theme is Practical Applications of Ecotoxicology, Chemistry, Risk Assessment and Environmental Science. Pre-registration is \$30 for students; \$55 general. Abstracts due 3/27/98.

Invited Workshop

Challenges in Tropospheric Photochemistry Workshop: 6/8-11/98 at NCAR, Boulder, CO. Conducted jointly by The Institute for Atmospheric Chemistry at the Juelich Research Center and NCAR, Boulder, is a workshop for the exchange of young scientists and scientific information on aspects of global change. The goal is to bring together young scientists and experts to discuss selected topics in the field of atmospheric chemistry in order to support an interdisciplinary network of emerging leaders in this field. Applications must be received by 4/15/98.

Announcements and Opportunities

6:30 pm Thursday seminars at Southampton College in the Business Center Lecture Hall: 3/19/98 SPRING BREAK.

FIRST YEAR GRAD STUDENTS: Are you interested in planktonic microbial communities and looking for research support? See Darcy Lonsdale and/or Gordon Taylor about a new project in the Peconics starting ASAP.

The Boundary Layer Group in the College of Oceanic & Atmospheric Sciences at Oregon State University is offering 2 graduate research assistantships in air-sea interaction. One assistantship is at the masters level and the other at the Ph. D. level.

Summer Positions:

The University of Maine Cooperative Extension announces two openings for environmental camp counselors at the Vaughn Island 4-H Camp. Deadline 4/21/98

The DEC announces two openings for research assistants to help complete a tidal habitat mapping program on the Hudson River during the summer. Field work, data analysis, GIS database work and some required canoeing! Deadline 4/20/98.

Seeking Marine Research

Experience: Junior at Columbia University wishes to assist in marine research, especially field work, for the summer. Currently a research assistant at CU. Can be contacted by phone at (212) 853-5536 or email at dk295@columbi.edu.

Announcements and Opportunities

SEMINARS:

**6:30 pm Thursday seminars at Southampton College in the Business Center Lecture Hall:
4/9/98 James Cervino
Wasting Disease in Corals.**

**12:30 pm Friday seminars at Brooklyn College of CUNY in the Ingersoll Extension, room 113:
Paul Loiselle of the New York Aquarium for Wildlife Conservation "Freshwater fishes of Madagascar (or fishes of Jurassic Park)".**

Dowling College announces the 2nd Annual Symposium on the Banks of the South Shore Estuary (followed by a clam bake and canoeing on the river) Sunday, 4/5/98, 9am-4pm.

POST-DOCS/VISITING SCIENTISTS:

The Max Planck Institute for Marine Microbiology, Bremen, announces a position for a post-doc in the Microsensor Group. The group studies the biogeochemistry of the sediment-water interface and combines laboratory research with in situ analyses using benthic landers during research

cruises. Position available from 4/1/98. Deadline for app.'s is 4/15/98.

The EPA National Health and Environmental Effects Research Laboratory (NHEERL) is recruiting for four post-doc positions in Duluth:

1) To develop a monitoring strategy for amphibian metapopulations within a defined region...etc...

2) To design and conduct studies to evaluate the effects of UV light on aquatic and terrestrial environments..etc...

3) Candidate in the field of landscape ecology with skills in physical geography, watershed characterization/classification, watershed diagnostics and multivariate analysis...etc...

**4) Expertise in spatially explicit population modelling to develop models of fish populations applicable to issues surrounding the combined effects of spatially heterogeneous chemical and non-chemical stressors..etc...
Deadline for all of the above is 4/30/98. www.epa.gov/nheerl/**

NOAA/EPA is inviting applications for the post-doc fellowship program in regional/urban air quality monitoring. Positions are available in the Atmospheric Sciences Modeling Division of NOAA's Air Resources Laboratory in developing and testing EPAs

air quality modeling system and to work on a chemical transport model, based on an advanced version of the Regional Acid Deposition Model..etc..6/1/98. UCAR with the National Ice Center (NIC) is seeking post-docs to help build and develop the new Science Unit at NIC in Suitland, MD. Positions are available for two projects:

1) Development of a global ice product in support of the scientific and operational ice communities. This will focus initially on thorough evaluation and optimization of the existing SSM/I-based sea-ice product provided by the Navy....etc...

2) Unspecified - in order to encourage imaginative proposals which are able to demonstrate joint benefits for the scientific and operational ice communities...review the NIC Science Plan

www.natice.noaa.gov.....both positions require eligibility for a secret security clearance. Deadline 4/15/98.

A new visiting scientist position in the Office of Hydrology visiting scientist program provides hydrologic/hydrometeorologic and hydraulic research opportunities at the NWS/OH/Hydrologic Research Lab in Silver Spring, MD. The visiting scientist will participate in conducting applied research, development and implementation of dynamic

streamflow routing capabilities using the NWS River Forecast System operation, FLDWAD for NWS operations. Applicants should have an MS or PhD. Deadline 6/1/98.

TENURE-TRACK APPT.:

The Department of Geosciences at the University of Arizona, Tucson, invites applications for a tenure-track appointment in geomorphology, preferably at the assistant professor level. Selection process begins 7/1/98.

FIRST YEAR GRAD STUDENTS:

Are you interested in planktonic microbial communities and looking for research support? See Darcy Lonsdale and/or Gordon Taylor about a new project in the Peconics starting ASAP.

SUMMER POSITION:

2 Park Rangers in Interpretation Research, develop and present a variety of interpretive programs to the public based on park themes, staff the info desk, bookstore operations, etc... stipend \$1500 and housing provided at no cost. 16 week minimum mid-May through August. Curecanti National Recreation Area, 15 miles west of Gunnison, CO. www.nps.gov/cure

Honors student seeking research opportunity for Fall, 1998 and Spring, 1999 semesters. Vinay Krishna is a mathematics major in her junior year seeking to complete Honors College requirements. Her interests are in computer modeling or quantitative analysis related to the atmospheric/planetary sciences or marine sciences. She has computer programming experience in C, Pascal and Basic. She may be reached by email ukrishna@ic.sunysb.edu or call on campus 216-2728.

MISCELLANEOUS:

The University of Delaware College of Marine Studies is advertising their publications in a service called the Latest Word. Abstracts from 14 publications in the month of March are available for perusal.

The American Littoral Society is calling for help for the 1998 International Coastal Cleanup, the largest volunteer effort in the marine environment. The date is 9/19/98. www.alsnyc.org

VAX-TO-FLAX...VAX-TO-FLAX... NOW ONLY ABOUT A MONTH AWAY scheduled for Saturday May 2nd... So road warriors, pry the pebbles from your treads, check your laces for frays, and visualize your victorious, course-running strategy (faculty/staff may want to consult a road map).

The Intramural Program is holding a golf tournament Friday, May 1, 1998. \$32 registration deadline 4/24/98.

Or... try "Folleyball" for faculty, staff & students in the Pritchard Gym 4/14/98 7-9:30 pm.

Food Drive Continues
Please remember to bring in something for the food drive.

Three Good Reasons To Give Blood:

1. There is no substitute
2. There is no substitute
3. There is no substitute

Everyday Long Island hospitals need 800 pints of blood to meet the needs of patients in Nassau, Suffolk and Queens. The only source for blood is the volunteer blood donor...people like YOU, your friends and your business associates. Blood cannot be manufactured.
